Address (Number and Street)

- 2006 W Avenue J

City

- Lancaster

State

- California (CA)

Zip Code

- 93536

Telephone Number

- (661) 945-2729

Person whom you dealt with and their title

- Hoang Dang - Pharmacist - RPH #52538

Please briefly describe your complaint

- I am filing a formal complaint for Unprofessional Conduct (BPC § 4301) and Obstruction of Therapy (BPC § 733). On March 15, 2026, Pharmacist Hoang Dang (RPH 52538) informed me my prescription was "out of stock" after a performative, zero-second inventory check. Less than an hour later, Pharmacist Katie Nguyen successfully filled the same prescription at the same location. The medication was provided as a partial-fill in a plastic baggie, proving the bulk stock was physically present during Dang's initial refusal. RPh Dang intentionally falsified inventory status to deny service and obstruct my medical treatment. I request a review of the Electronic Pedigree and Inventory Reconciliation Reports for both March 15 and March 16, 2026. I suspect the "Out of Stock" status was a result of manual inventory manipulation intended to obstruct dispensing, as the medication was immediately available for a partial fill by a different pharmacist (Nguyen) on 3/16 without a delivery taking place.

What was the date of Purchase?

- 03/16/2026

What was the date of Incident?

- 03/15/2026

Enter Patient Date of Birth

- [REDACTED]

Does the incident involve a prescription?

- Yes

Have you had this prescription before?

- Yes

Medication Prescribed

- Buprenorphine/naloxone 4mg/1mg film

Medication Received

- Buprenorphine/naloxone 4mg/1mg film

Prescription Number

- [REDACTED]838

Prescribing Doctor

- [REDACTED]

Was your medication: delivered / picked up at the pharmacy / not received?

- Picked up at the pharmacy

If your prescription pick-up/delivery was delayed and you were without medication, approximately how many days did you or the person the prescription was for go without medication?

- On Sunday, March 15, I called CVS #09785 at 3:23 PM and spoke with RPh Hoang Dang (52538) for over 7 minutes. He intentionally obstructed my care by falsely claiming the medication was out of stock. Later that evening at 9:45 PM, I spoke with RPh Katie Nguyen, who contradicted his claim and facilitated a partial fill from the bulk stock Dang claimed did not exist. This 6+ hour intentional delay disrupted my strict, medically supervised benzodiazepine taper. By refusing to dispense my maintenance medication in bad faith, RPh Dang triggered acute withdrawal symptoms, physical instability, and severe psychological distress. His fabricated "out of stock" claim was a direct threat to my safety and a violation of the standard of care.

Was Patient Consultation Provided?

- No

Did the prescriber make any change to your prescription?

- No

Was There Patient Harm

- Yes

Please describe the symptoms and duration of symptoms

- Intentional deception by a pharmacist creates immediate medical risk. For maintenance medications like Buprenorphine, a refusal to dispense can lead to withdrawal, medical instability, and severe emotional distress. RPh Dang's bad-faith obstruction forced me to involve a second pharmacist (Nguyen) to receive the care I am legally entitled to under BPC § 733.

Have you discussed the symptoms with your health provider?

- No

Please list supporting documents in your possession such as prescription container, medication, receipts, pictures, etc.

- CVS Pharmacy Receipt for Store #09785 dated 3/16/2026. Physical Evidence: The partial-fill "sandwich bag" with pharmacy labels/initials provided by RPh Nguyen. Digital Evidence: Phone logs showing a 3:23 PM and 9:45 PM call to CVS Store #09785 on 3/15/2026. Transport Records: Uber trip logs (insurance-provided) verifying the exact timeline of arrival and departure from the pharmacy. Medical Records: Documentation of the supervised benzodiazepine taper schedule and Buprenorphine prescription history.

Are you the patient?

- Yes
