Office of Inspector General

Requesting information about your complaint

Every report we receive is important, however, not every submission results in an investigation.

Once submitted, we will review your complaint for relevance and completeness. If you have identified yourself, a reviewing official may contact you for further information. It is important to note that you might not be contacted by an investigator but that does not mean your complaint is not being investigated. Due to the high volume of complaints we receive, it is not possible to contact every complainant. The Hotline will not be able to confirm receipt of your complaint or respond to any inquiries about action taken on your complaint.

You may request information about your complaint through the OIG Freedom of Information Act officer (<https://oig.hhs.gov/foia>). Remember to phrase your request in terms of a search for records pertinent to your complaint, not status. You should wait at least six months before filing such a request.

Your narrative

Your description of events

I am filing this complaint to report corporate fraud, billing manipulation, and severe beneficiary harm involving Medi-Cal Rx funds at CVS Pharmacy Store #9785 (operated by Garfield Beach CVS, LLC at 2006 W Ave J, Lancaster, CA 93536).

I am a high-risk patient enrolled in a clinically supervised Diazepam taper program. On April 20, 2026, at 9:05 AM, my healthcare provider electronically transmitted a prescription for 5 MG Diazepam to this CVS location. Official electronic transaction logs from Medi-Cal Rx (Chat Log Ref # [REDACTED] 311) confirm that the government-funded program successfully authorized and paid for this claim three separate times: at 9:06 AM, 9:40 AM, and 9:45 AM.

Despite the fact that the government had already authorized and funded the transaction, an on-duty pharmacist identifying himself as "Randy" called me from the pharmacy's line (661-945-2729) at exactly 9:45 AM. He issued a verbal constructive refusal, stating the pharmacy would not dispense the medication until "tomorrow."

To override the government's approvals, CVS Store #9785 abused its billing access by manually submitting system reversals to Medi-Cal Rx at the exact time of the phone call (9:45 AM). They used their authorized coding access deceptively -- falsifying the electronic record to claw back the state's payment and make it look like the prescription could not be filled, all without medical justification or provider consent.

This intentional 16-hour delay of a government-approved, life-sustaining medication caused severe beneficiary harm. The forced interruption of my supervised treatment caused

acute autonomic distress, central nervous system destabilization, severe physical tremors, and a total loss of consciousness. I was unable to secure the medication until 1:01 AM on April 21, 2026.

CVS Store #9785's deceptive use of manual billing reversals to cancel valid government approvals constitutes an abusive manipulation of Medicaid/Medi-Cal transaction systems and a dangerous breach of patient care. I possess full supporting documentation, including the Medi-Cal Rx timestamp logs, phone records, and medical necessity letters from my provider.
